Tractor and tank steel castings, Necessary properties in.... 540
Tramrail system, Layout of sand conditioning equipment and.... 146
Transverse test bars of cast iron, cast and machined, Properties of.. 453
Transverse tests in A.S.T.M. specifications for cast iron.... 590
Transverse tests of cast iron.... 569
Tunnel kiln as aid in reducing malleabilization time.... 109

V

Valve bronzes of 85-5-5-5 type, Deoxidation of.... 370
Vanadium:
In steel castings....225
Steel castings for shock resistance, Medium manganese, nickel-chrome and 543
Steel for centrifugally cast guns, Molybdenum.... 238
Steels, Carbon.... 229
Steels, Chromium 233
Steels for corrosion and heat resistance, Applications of.... 243
Steels, Nickel....213, 232

W

Wear:
Of cast iron, Carbon content as affecting.... 582
Resistance of beryllium-copper castings.... 340
Resistant malleable cast iron, Chromium and silicon effects in producing high strength.... 113
Testing of cast iron, Bibliography on.... 585
Tests and value of hardness testing for control of cast iron.... 575
White cast iron, Malleabilization of.... 98

X

X-rays for foundry inspection.... 502

Amos, M. A. and Grace, R. W.—Handling and Conditioning of Sand in a Small Gray Iron Foundry 144

Ash, E. J. and Saeger, C. M., Jr.—Properties of Gray Cast Iron as Affected by Casting Conditions 449

Boegehold, A. L.—Wear Tests and Value of Hardness Testing for Control of Product 575

Bolton, J. W.—A.S.T.M. Specification A48-32T 587

Bornstein, H.—Significance of Testing Cast Iron and Limitations of Testing 560

Relationship of A.S.T.M. and A.F.A. in the Development of Tests and Specifications 558

Briggs, C. W. and Gezelius, R. A.—Studies on Solidification and Contraction and Relation to Formation of Hot Tears in Steel Castings. 385

Cole, C. S. and Harder, O. E.—A Study of Six Bearing Bronzes 314

Comstock, G. F.—Results of Comparative Tests of Titanium Treated and Other Alloy Cast Irons 278

Cone, E. F.—Beryllium-Copper Castings—Foundry Practice, Heat Treatment, Properties 330

Critchett, J. H.—Chromium in Steel Castings 245

Culling, C. R.—The Experience of a Gray Iron Jobbing Foundry with the Rocking-Type Electric Furnace 519

Delbart, G. R.—Martensitic Quenching of Cast Iron 20

Dierker, A. H.—Silicon and Manganese as Deoxidizers in Cast Iron .. 469

Dietert, H. W. and Valtier, F.—Grain Structure Control Insures Mold Permeability Control 175

Ellis, O. W.—Inverse Segregation 347

Forbes, D. P.—Air Furnace Cast Iron 51

Frear, C. L.—Gray Iron Production in the Direct Arc, Acid-Lined Electric Furnace 289

Gezelius, R. A. and Briggs, C. W.—Studies on Solidification and Contraction and Relation to Formation of Hot Tears in Steel Castings. 385

Gillett, H. W. and Gregg, J. L.—Molybdenum in Cast Steel 193

Grace, H. W. and Amos, M. A.—Handling and Conditioning of Sand in a Small Gray Iron Foundry 144

Gregg, J. L. and Gillett, H. W.—Molybdenum in Cast Steel 193

Grotts, F.—Dynamic Properties of Steel Castings 538

Hall, Rebecca—High-Strength, Wear-Resistant Malleable Iron 112

Harder, O. E. and Cole, C. S.—A Study of Six Bearing Bronzes 314

Hardy, C. M.—Application of A.F.A. Sand Testing by the Producer .. 167

Material as Printed in Bi-monthly "Transactions"

All 1933 TRANSACTIONS material, as cross-indexed on pages 596-608 inclusive, has been printed in issues of the bi-monthly "TRANSACTIONS OF A.F.A." To find quickly the bi-monthly issue in which any indexed subject appears, refer to the following:

Bi-Monthly Issue	*Transactions Pages*
July-August	1-192
September-October	193-288
November-December	289-384
January-February	385-480
March-April	481-608
